

1. Chose if the equations involving addition or subtraction are true or false.

$$10 - 5 = 15 - 5$$

- A) [True](#)
- B) [False](#)

[Try Again](#)

Correct

[Go to the Next Question](#)

2. Chose if the equations involving addition or subtraction are true or false.

$$8 = 5 + 3$$

- A. [True](#)
- B. [False](#)

[Try Again](#)

Correct

[Go to the Next Question](#)

3. If the equations involving addition or subtraction are true or false.

$$15 + 5 = 20$$

A. [True](#)

B. [False](#)

[Try Again](#)

Correct
